

KH ROBERTS[®]

FOOD FLAVOURS

Encapsulated Flavour Solutions

Your Solution to Stable and Long Shelf Life Products

KH Roberts' proprietary technology and mastery in flavour encapsulation produces high quality encapsulated powder flavours with an extended shelf life. KH Roberts' encapsulation technology allows an effective loading of high-impact aromas and flavourings to be captured in a matrix barrier that provides flavour protection against the elements of moisture and cross contamination from other ingredients. The result – dry, free flowing powder flavours that allow for easy user application, effective cost in use and exceptional batch to batch product consistency.

Benefits

- Extended finished product shelf life and stability, especially in complex product formula with multiple high-impact ingredients
- Controlled flavour release for optimal sensory impact and experience
- Effective cost in use and ease of material storage
- Enhanced finished product quality and value
